Crawford Colts 'Explode

1. Tina Gerstler finds things on the other side of the room more interesting than her math assignment.
2. Miss Mary Wilcoxon takes a break from her hectic role as a vice-principal to enjoy a leisurely lunch.
3. Mr. Robert Hendricks and Mr. Quentin Goldstein discuss the strategy used by the J.V. football team.
4. To put a little enjoyment into their monotonous routines, students packed the gym for one of many noontime rallies.

with.....' Personality

In this day and age of automation, people tend to let things pass by them. They don't take much notice of what is happening, they just don't care. Events, which should shake their feelings or emotions, don't jar people. Watergate, a Russian-American handshake in space, an offshore claim of 200 miles, these things should get people to react. But how many took a sincere interest in the Watergate proceedings, not treating it in a jesting manner? Who actually cared that two nations had space capsules link up, so their occupants could shake hands in a friendly gesture? Was there a nationwide concern over the international offshore boundary claim?

These are on a national level, but speaking strictly of Crawford, there are just as many incidents that could have provoked student reactions, had there only been some concern. What about the attendance during afternoon football games. It was awfully low. Most students spent the year joking about when the new principal was going to show up and introduce himself, instead of seeking him out first and offering a hello! A lot of people missed a good dance December 12, when only 125 tickets were sold. Then those people turned around and complained about a major lack of dances.

If the species commonly known as human beings is to survive, the members of that species have to start reacting, start Exploding. With Enthusiasm when things are going right, or with enthusiastic ambition to correct the things that are going wrong, With Participation in order to meet new people and exchange ideas, and With Power to release energy and satisfy the competitive urge. Most of all people must Explode with Personality so they may keep their own identity.

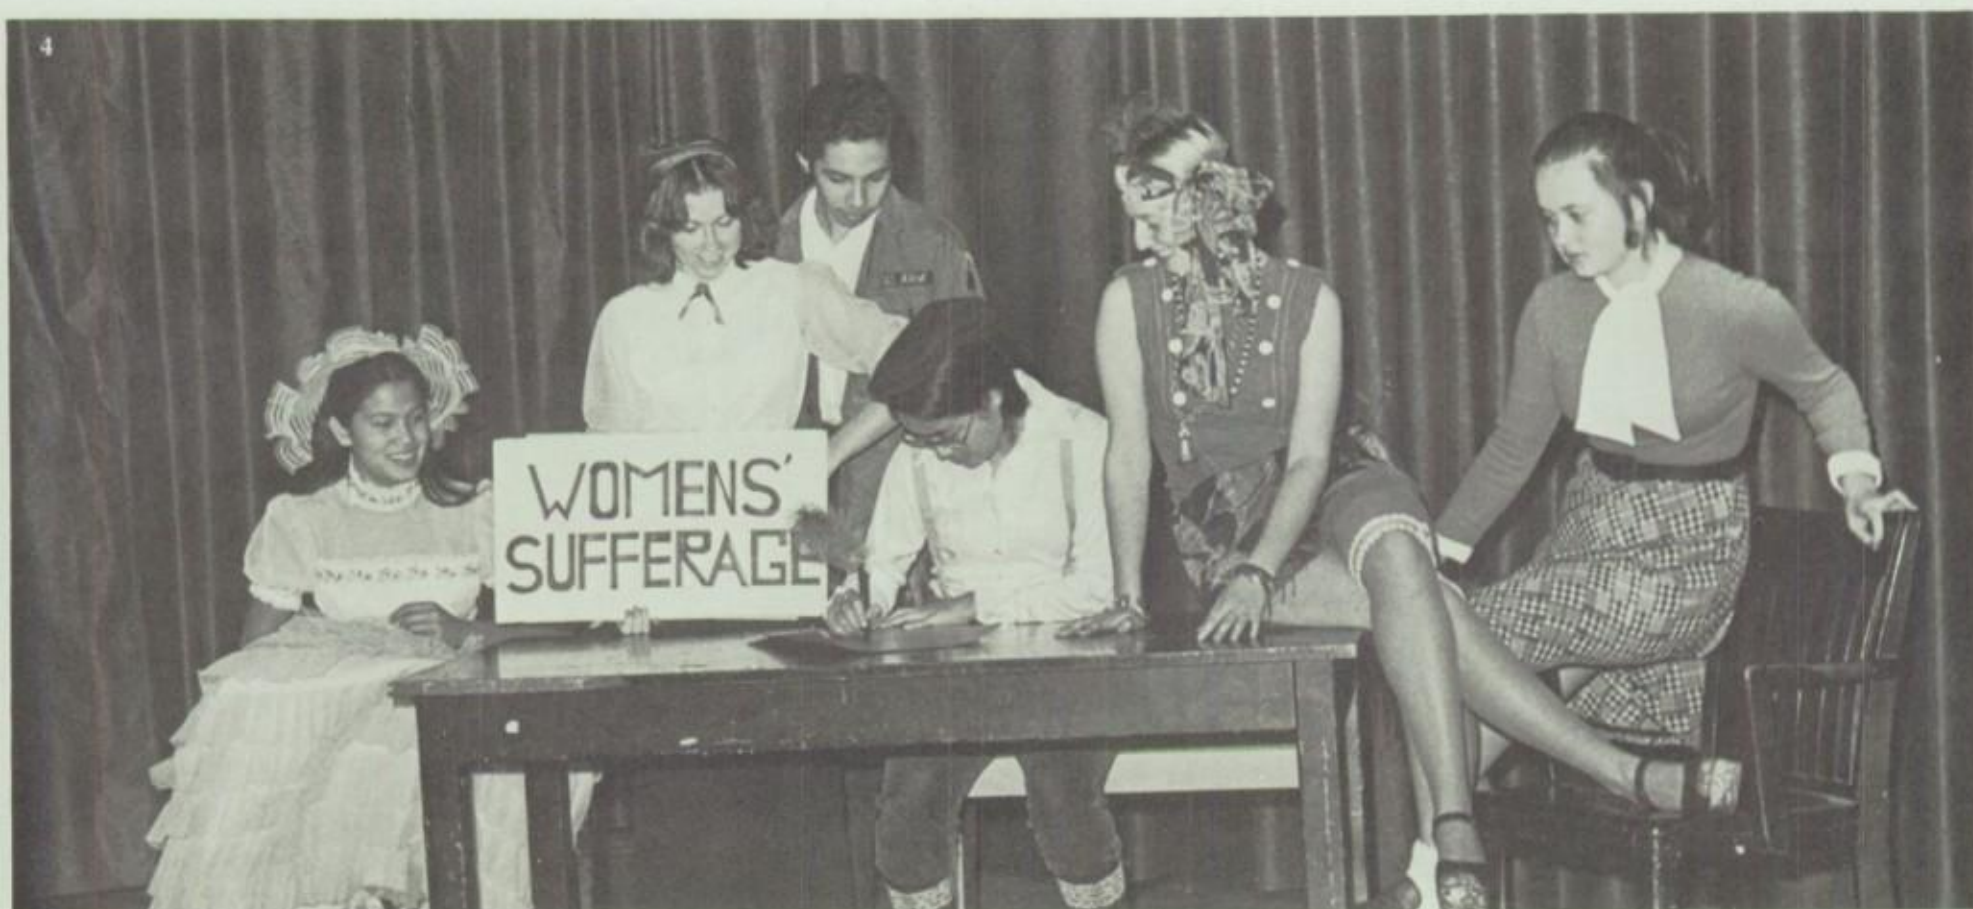

Just as the first states sent delegates to represent them at the signing of the Declaration of Independence, the four groups at Crawford all sent representatives to sign the Declaration of Delivery of the 1976 **Centaur**. The sophomore class had seven representatives, the junior contingent had nine delegates while the senior congregation sent five representatives. The faculty was ably represented with their one delegate. For posterity sake, brief descriptions of the twenty-three delegates follow along with a description of their position.

1. Melodie Grace kicks back after completing an attempt to portray the activities of the junior

contingent. 'Giggles' was rumored to double as a wild woman when not working on the delivery. Mrs. Ingalls, alias Darlene Smith, found working with the senior citizens a real experience. Mrs. Ingalls was reported to enjoy working with children, and often worked in a toy shop in her spare time. Debby Bowles, major signer for the sophomore section had her work cut out for her in trying to deliver the class section with the largest number of citizens. Although she pretended otherwise, it is known that Debby was particularly fond of advertising. Tina 'Rock and Roll' Roy assisted all of the major signers in completing their part of the delivery after transferring over from Santana High School. Fearing some assistance might be necessary during the delivery, 'Dr.' Francis 'Lindy' Linderman was on standby. Dr. Lindy was always willing to assist any of the representatives. Mrs. Ingalls and Co. reaped a valuable worker in Sally 'Hick' McKenzie.

Sally was always brightening everyone's day with her cheery smile. In other circles Sally is known to be a fine actress with an excellent voice.

2. Julie 'Flapper' Bloom assisted Cheryl in the sports department. She danced her way into the hearts of the coaches by covering such assignments as waterpolo games and wrestling matches. Cheryl Lindley was the major representative in the sports section. Cheryl was responsible for overseeing the progress of the pages and for making sure they weren't late for delivery. Chris Casey, the staff revolutionist, aided Cheryl in the delivery of the sports section. Chris was known for his quiet moves which were similar to those used by the colonial revolutionaries. Wendy 'Shortstuff' Hironaka proved that good things come in small packages. Wendy was anything but short in her photographic ability. It was rumored that Wendy's specialty is portraits. Matt 'Fonzie' Wilson

always keeps cool whether in the darkroom watching things develop or hanging around his 'Fonz' like harem. The 'Fonz' is even cool while practicing cheers.

3. Sara 'Belle' Lowrey used Southern charm to soothe and calm upset faculty members while aiding Ron in the faculty section. Sara maintained her ladylike behavior even when she picked up a racket and became the belle of the tennis courts. 'Smiley' Susan Denton showed Mrs. Walton like ingenuity while assisting the gypsy in many business like escapades. It was rumored that Susan's lunchtime absences are what saved her sanity. A journeyman in his trade, David Van Hoy captured many memories with his Minolta. David was heard to remark, more than once, "now I know why all you people from last year acted so weird." Judy Clugston, alias Madame Zora, tried to predict the outcome of all the hard work by the members. Madame Zora was

known to quote from several Suessian books, which often tried Mrs. Walton's patience. One of the major signers, Ron Moore acquainted himself with the faculty and administration while attempting to deliver them to their opposition. Not Shown: Tom 'Just call me Rod' Barkell enlivened darkroom procedures with his tapes of Rod Stewart and the Faces blaring while he processed film and prints.

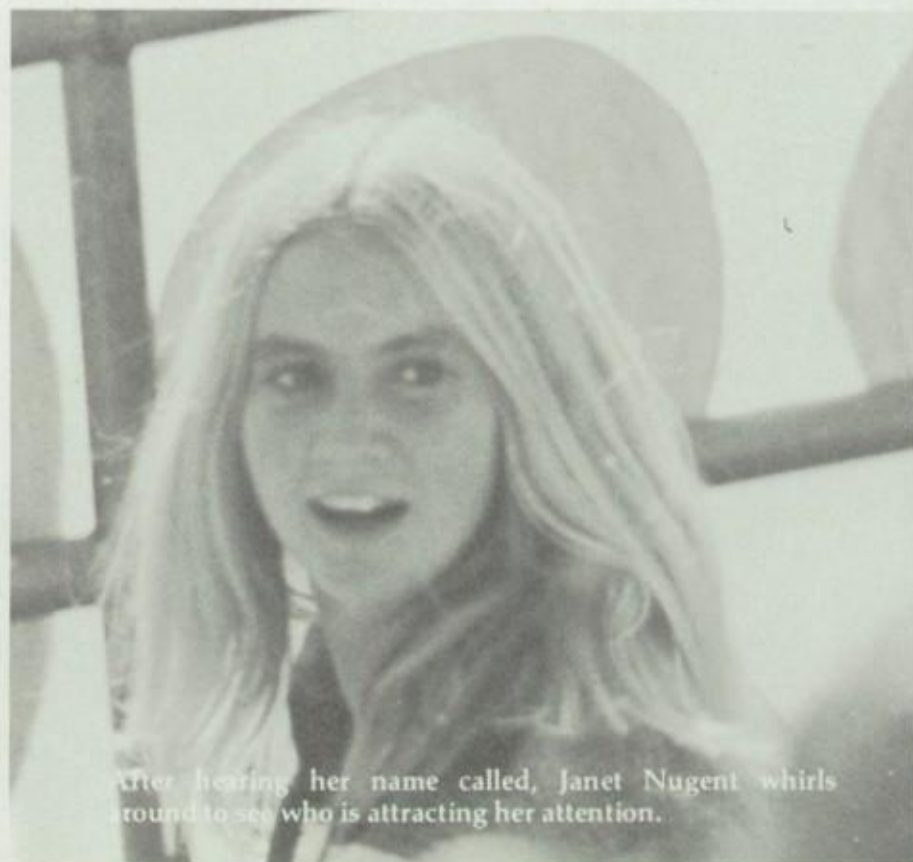

4. Cindy 'Scarlet' Goode was in charge of declaring the clubs and organizations section ready for delivery. Scarlet was known for the charm she employed while working with sponsors and photographers. Working in the student life section gave B. Elaine View a chance to petition her peers for equality among the sexes. In doing so, Elaine had to watch her innocently made remarks. Rod Morris, affectionately called A-1, was AWOL for awhile in an attempt to complete the Yellow Pages before the spring delivery. A-1 also assisted in the sports section.

'Little Boy' Lori Kishi was responsible for delivering the student life section. Lori was known for her affection for sunflower seeds, and her sunny "Hallo, hallo!" greeting. Leah Sitton was a great help in the student life section with her firsthand account of bus rides to and from Murphy Canyon and her expertise in copy writing. Barbara Autrey's favorite expression "What am I gonna' do?" belied her continual hard work and perseverance. Barbara aided Scarlet in the clubs and organizations section.

Explode With . . . ENTHUSIASM

Dressed in the Halloween spirit, Luanne Nelson drinks her lunch. Could it be a little fresh blood?

After hearing her name called, Janet Nugent whirls around to see who is attracting her attention.

Jim Steinberg smiles while listening enthusiastically to Sherral Robinson.

Noreen Riveroll heralds the coming of the volleyball team back at the homecoming activities.

By lending his voice, Dean Nichols aides the J.V. Cheerleaders.

To Crawford students the '75-76 school year will be known as the Year of Enthusiasm. The student body, and even some faculty members, fairly exploded with it, breaking the monotonous apathy of past years.

The explosion was sparked off even before school started, at the annual leadership retreat where the spirit of school leaders was evident as they enthusiastically discussed possible events and activities. This spirit was transmitted to the student body.

During homecoming the enthusiasm of students was obvious as participation in the week's activities was greatly increased over last year. It was also evident the following week when students energetically decorated Henry's quad Thursday night for the game the next day, and dressed with care on Halloween to scare their fellow students. The explosion of spirit around the campus in fall continued throughout the year as Colts exploded with Enthusiasm.

Leaving all, well . . . almost all, of their reservations behind, Helen Bruce, Janis Shemberg, Brent Wittmayer, Gerry Zaks and Kathy Fitzgerald experience how it feels to be in a wedding party.

Registration, Hot Weather Welcomed Students

Hot weather and humidity accompanied students as they returned to the grind of everyday student life. Often times they could be found gulping cokes while fighting for shade, or a place near the fans in classrooms.

Registration went off with the usual hassels, frustrations, and triumphs. For sophomores, the new experience was quite nerve racking, though everyone survived.

1. Realizing there is thirty-five weeks of school left in the year, Linda Hirst tries to hide her grief in a book.

2. As a member of the football team, Kevin Moody is introduced by coach Bill Hall, while coaches Dave Ponsford, Carl Broselle and Jim Romig look on with amusement.

3. Senior Tom Gamberdella thoroughly enjoying registration and all its aspects, discusses his program with counselor Lyle Young.

4. Seeking relief from the hot weather, students recline in the shade during lunch.

5. Attempting to survive registration, Molly Luschei turns to counselor Beth Limoli for assistance.

As alumni returned and were reunited with old friends, the crowning of the queen and floats returned the glamour to homecoming. Cheerleaders of one, two, and five years ago returned to join in the festivities which included the first place Latin Club and second place Aurora-Key Club floats. The car parade transported the newly crowned queen, Bonnie Newman, and attendants around the field. The homecoming game against Hoover, found the Colts victorious with a 28-14 final score.

Tradition Returned to Coronation, Floats

1. Guy Briggs and Ken Goff march to tunes from Walt Disney movies.

2. The eagle's head is down, but the Latin Club's excitement is up as they capture 1st place in the float competition.

3. Running back to their alma mater, the pep squad members of one, two and five years ago joined the present pep squad in cheering the Colts to a 28-14 victory over Hoover.

4. Keiko Nakamura leads the parade of cars, as she experiences her first homecoming.

5. Adding to the brilliance of Homecoming are Sophomore Attendant Janet Nugent, Queen Bonnie Newman, Senior Attendant Wanda Wright, Senior Attendant Joyce Ponce, Junior Attendant Pam Williams and their respective escorts Ray Sappington, Jeff Ousley, Richard Washington, Mike Rottenberg and Brian Overstreet.

Donut Dunk-em, Rally and Dance Highlighted

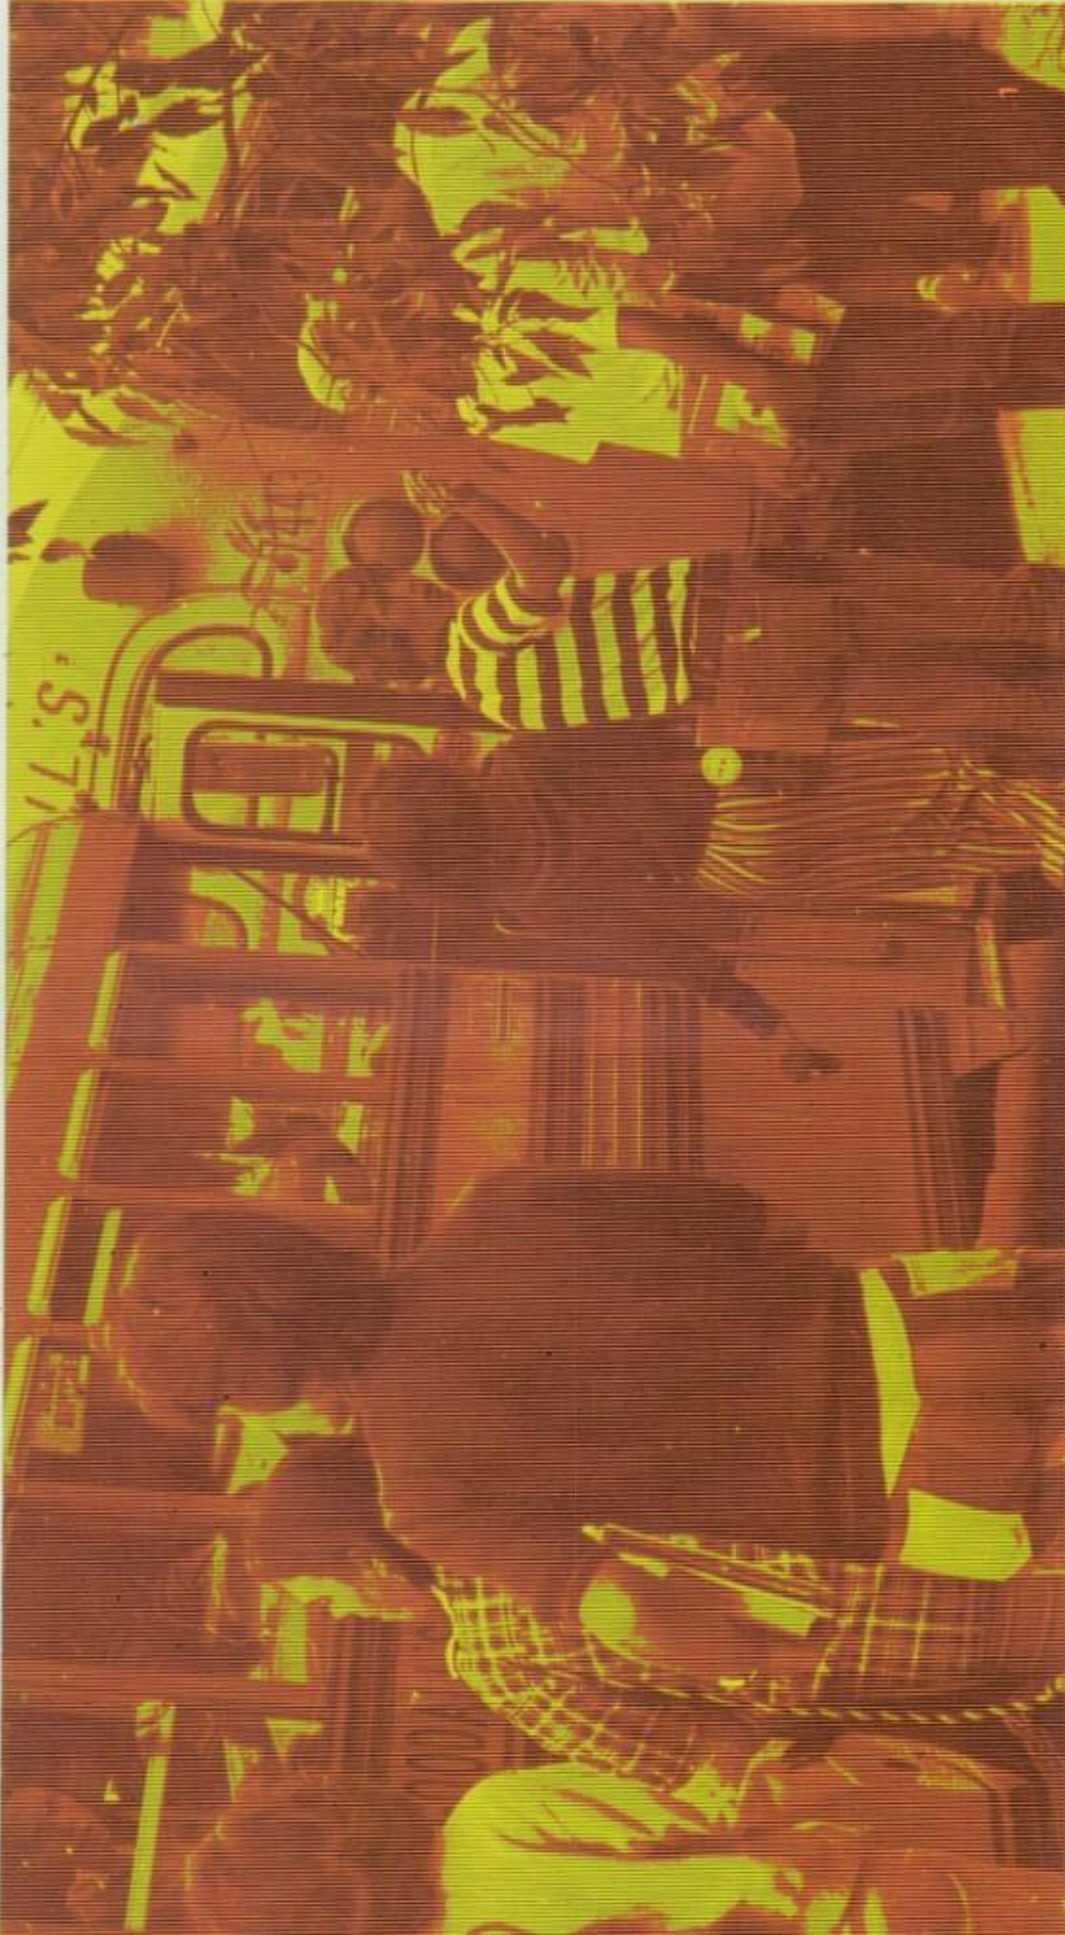

Homecoming Week

Homecoming Week was: decorating classrooms to the theme of "Crawford has the Spirit of '76" and decorating the quad to the theme of mischief ... eating doughnuts and bagels while awaiting the announcement of the court ... eagerly working on floats ... being packed in the gym like sardines for the big rally of the year ... the songleaders strip tease act ... dancing to the music of "Cotton Mouth" ... Mr. Minoru Fukuda's Japanese class winning the room decoration contest with Mrs. Virginia MacMaster's placing 2nd ... Homecoming Week, a success for all those who participated.

1. Clapping his hands to the music, Rick Ellis dances with Tina Gerstler.
2. Students nonchalantly walk through the attractively 'decorated' quad.
3. Alison Staff and Kenny Vasquez dance to one of a variety of songs played by Cotton Mouth, a local rock band.
4. Songleaders perform a routine to awaken the droopy-eyed crowd at the Donut-Dunkem.
5. Following the songleaders strip tease act, Mindy Fogleman, Robyn Nelson and Janet Roberts entertain the alumni and students gathered in the gym.

"Crawford and Bus-ed" was Motto of Riders

The old fashioned idea of the yellow school bus was again brought to life when students were bused from Murphy Canyon Heights. Students were bused for this one year only, until their own school Junipero Serra Junior-Senior High School, was completed.

Bus stops became social gatherings where groups discussed nighttime activities or the forthcoming test. Busing conditions left a little to be desired. With four buses each carrying approximately seventy-five students, it was common to see three to a seat, in every seat, creating a solid wall of bodies.

The repetition of the uneventful twenty-five minute ride caused many students to seek excitement of their own. Buses rolling down the highway attracted attention as Christmas carols and current hits sounded from the open windows.

1. After school, students head for parked buses waiting to take them to their humble abodes in Murphy Canyon Heights.
2. After dropping off a load of rambunctious students, the bus and hassled driver head for the parking yard to rest up for the return journey at 2:15 p.m.
3. Michael Cousins waits for a break in the stream of bodies getting off the bus in the morning.
4. Calm, cool, and collected Ron Dunn gazes passively out of the window, while people jostle their way into seats for the return trip home.
5. Nadine Apadoca enjoys the cool breeze created by the quickly moving bus, after a hot day at school.

Ghosts, Ghouls and Goblins Haunted Campus

Halloween was celebrated, as in previous years, with fun and various costumes. Disregarding the fact that Halloween is for kids, many students arrived decked in zany costumes while others had painted faces.

Two groups, the Family and the Pep Squad, used Halloween as their theme for a skit and a rally. Halloween was also the day of the football game against rival Henry, with a "spirited" crowd attending.

1. Members of "The Family", Jesse Wilkins, Tom O'Neal, Rick Ellis and Richard Woods perform a skit in honor of Halloween.
2. Clutching the head of Teri Yeakle, Dean Nichols smiles wickedly.
3. Dressed as Laverne and a mime, Pam Jackson and Mindy Fogleman talks with Mrs. Naida Groff in their Psychology class.
4. Jess Wilkins draws strange glances as he walks across the quad.
5. Karen Pieratt and Sharon Burns exemplify the spirit of Halloween with their painted faces rather than dressing up.

5. Rose Salazar enthusiastically cheers another Colt touchdown.

Skateboard Contest Adds Interest in Activity

A new attraction, a student skateboarding contest, was sponsored by Mr. Richard Christensen and Mr. Richard Warner for the first activity period of the year.

Students who entered were judged on the difficulty of their stunts, as well as ability to stay on the board. They were allotted 90 seconds to perform. Contestants were judged by Jesse Wilkins and Dean Spillane.

The judges were hard put to decide on a winner, but eventually they decided that David Goode was first, Ellen O'Neal second, and third went to Randy Bernstein.

1. David Goode performs difficult stunts with accuracy, in the short 90 seconds allotted to him.
2. As the only girl entered, Ellen O'Neal gets a big applause as she performs her graceful handstand.
3. Mr. Richard Christensen and Mr. Richard Warner, sponsors of the skateboarding contest, watch the proceedings with interest and approval of the activity.
4. The crowd watches with interest as each contestant performs his stunts and tricks during the first activity period of the year.
5. The crowd cheers while Randy Bernstein performs his amazing triple board handstand.

Period, Providing Thrills for Spectators

After a Friday night basketball victory over Montgomery, many students danced to celebrate. The gym was cleared of spectators without a dance ticket, while the group Threshold set up. They played various types of music ranging from soft rock to soul. Sponsored by the senior class, the Winter Holiday Dance lost money, but the dance was enjoyed by all who went.

Students Danced Following Basketball Victory

1. David Schenck and Liz Weaver start the fun by being among the first to venture out on the dance floor.
2. Keeping time, Janet Nugent and Scott Brown dance to the music of Threshold.
3. Gay Cooper and Andy Shahan get 'into' the music at a post-basketball game dance sponsored by the senior class.
4. A wide variety of songs played by the band Threshold provided music to everyone's liking.

Stage Band helps Rallies

Stage and jazz bands were involved in many of the fall seasonal events. They played for the rallies and football games, as well as concerts of their own.

Rallies boosted enthusiasm for the coming games, supplied entertainment, and featured skits by 'The Family', and performances by the marching band and pep squad.

boost Enthusiasm

1. Gazing about in dazed wonder, Rob Welch views the world from his reclined position where he was pushed by a violent actor during a skit by 'The Family'.
2. Students fill the bleachers while attending the rally put on to increase enthusiasm for the up-coming game.
3. Talented members of the jazz band play a variety of songs for their first concert of the year.
4. Cheerleaders, in re-enactment of tradition, offer strip tease act as one of the many home-coming events.
5. The stage band features musical entertainment during the sophomore class election assembly.
6. Drum major Alan Cline demonstrates techniques for directing the band during the home-coming rally.

I don't see that open campus has created any ~~big~~ unexpected ~~people~~ problems. As long as the students are happy I see no reason why it shouldn't continue, ~~even~~ although I haven't heard the views of the faculty.

Jim Stenberg

I think most of the students at Crawford are happy with the open lunch policy. I can't say for sure, but I think it's a good thing.

It's nice to have an extra ten minutes to get FAT

Campus Opens During Lunch... 'Watch Out'

On February 8, an open campus policy became a reality for San Diego City Schools. On the following days, yearbook staff members collected opinions of the students and teachers. Feelings were mixed, some felt that forty minutes was insufficient time to reach a fast food restaurant, eat lunch, and return before fifth period began. Several teachers agreed that the time allotted was not enough because the tardy count significantly rose when open campus began. Others enjoyed the open campus because it gave them a chance to get away from the school atmosphere, and most students were able to return to campus before class began.

I have the candy

open campus: the idea is good. It offers students the option to eat where they please, and do what they please during lunch. The idea hopefully will remain in the years, but perhaps the lunch period could be extended 10 or 15 minutes more.

Sandra Lee Cunningham

I like open campus. It gives us a chance for a break from school. I just hope everyone complies with the rules so we can keep it.

McDonald's!

I think open campus is a really good idea. It's a way to get away from the school. I like it. I think it will give us a chance to go to McDonald's.

It's pretty hot but I think we should have a longer lunch so the level won't be so high. It also gives us time to get away from the prison-like atmosphere & go off campus w/ our friends & not worry about getting busted.

Julie B...

I think ~~the~~ open campus is good. It gives people a chance to leave the campus and take a break for 40 minutes. We all need a break!

Bill Finkel

Winter Assembly: an Enjoyable Game of 'TAG'

Once upon a time in the land of school drudgery, there came five TAG players. Led by their Pied Piper, Mark Wenzel, they cavorted about the stage in joyful mime and occasional conversation. On February 18, the students were entertained for 40 minutes by original and imaginative improvisational comedia.

Crooks, a doctor, a potential divorcee and a stuttering hallucinator were all characters portrayed by talented members of the San Diego Repertory. During the course of this one act play, the students had a chance to forget school work and relax in an air of imaginative confusion and creative chaos, while the performers switched from theme to theme by tagging another person to replace him.

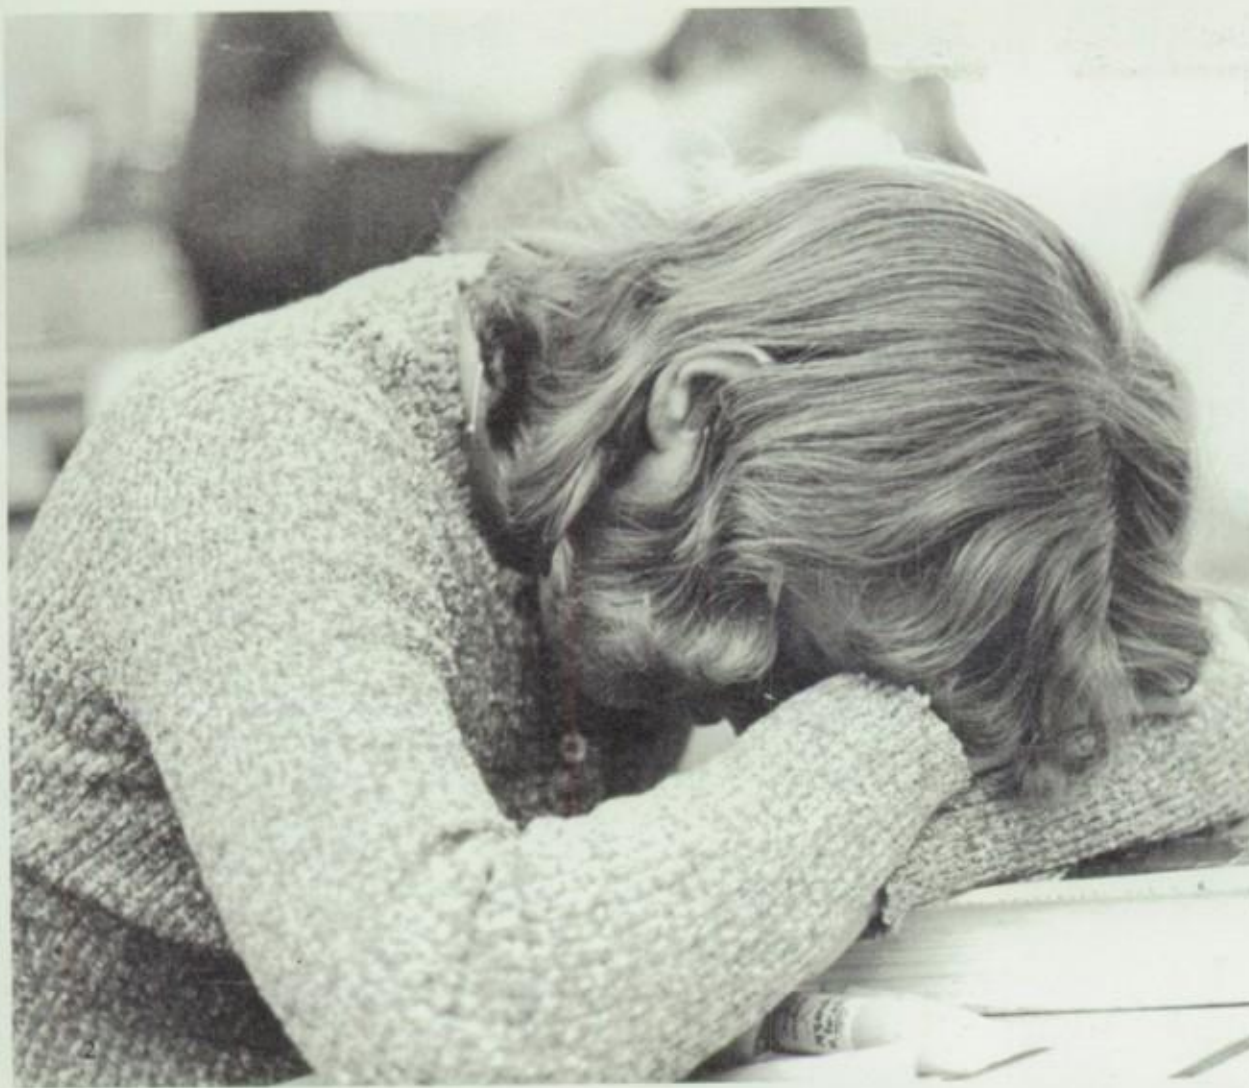

The students' fantasy world was shattered by the shrill reality of a ringing bell. Although they trudged back to classes, they were enlightened by their experience.

Early Morning Drowsiness Caught Students

Stretching, Yawning and Asleep in Classes

Although not quite awake, students greeted first period with everything but open arms. Since most of the holidays were over, school seemed to drag over the five day week. First period proved to be just a place to get a few extra winks of glorious sleep. A yawn here and a snore there were the only movements showing people were still alive. After hibernating through an hour of class, students impatiently awaited the sound of the bell.

1. Andy Barrera takes a moment from a hectic day to watch the others go by.
2. The early morning blahs finally has caught up with Julie Englehart, after having a very busy weekend.
3. Robert Rother tries to listen intently to the lecture, though he is thoroughly bored with chemistry.
4. While other students are busy daydreaming, Stephanie Finley works hard to get her assignments in on time.
5. After an hour of eating their own cooking, future gourmet cooks anxiously await a taste of ready made food.

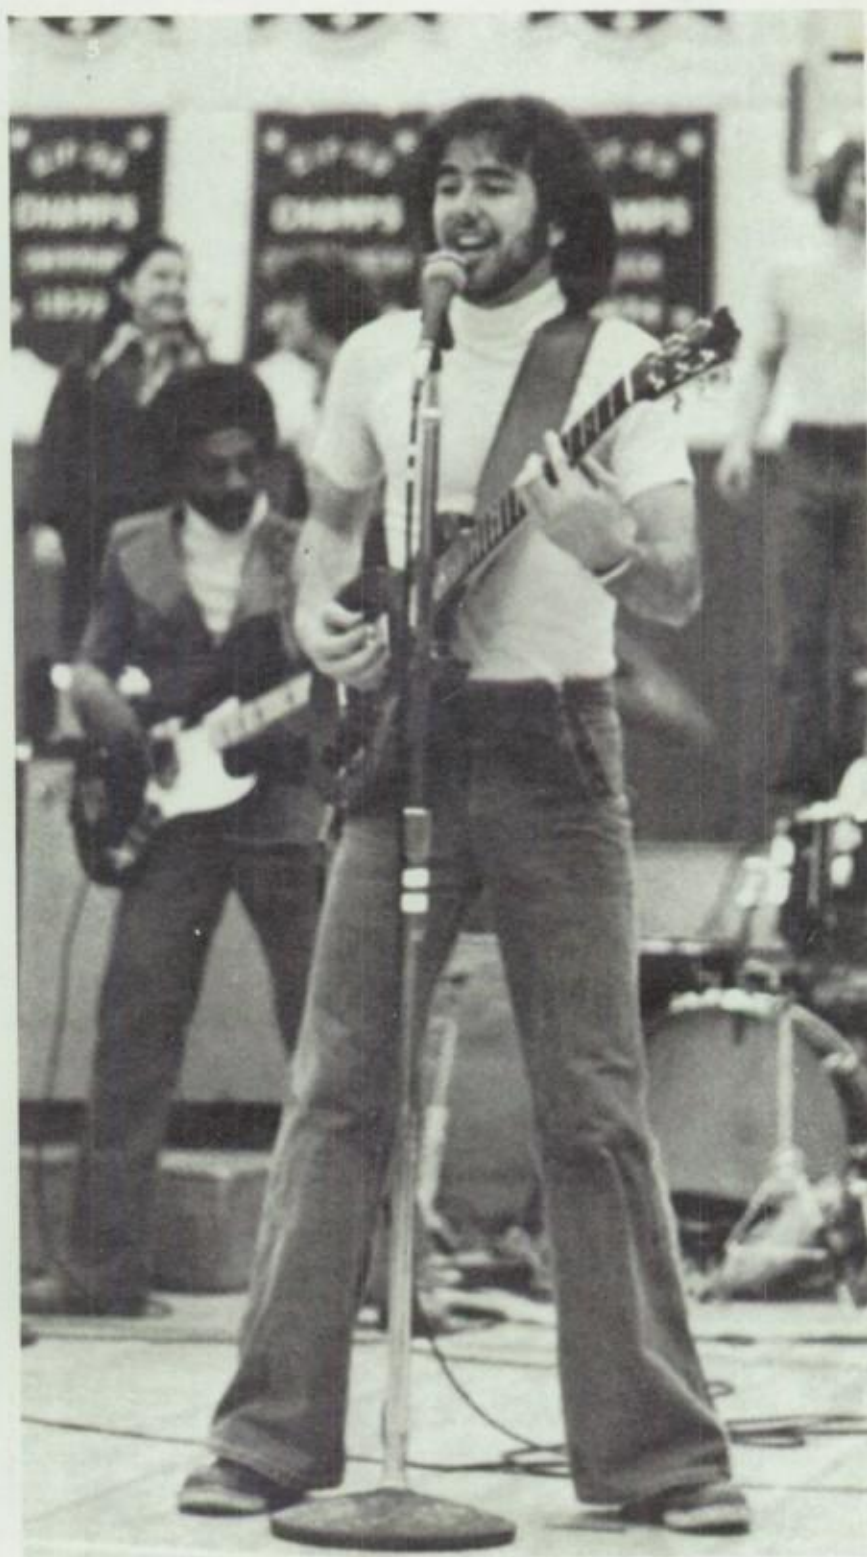

Performing Group, 'Up With People' Earned

1. Three members of 'Up With People' greet assembly group with open arms.
2. Cast members provide an enthusiastic backdrop for lead singer as he performs 'What Color is God's Skin?'
3. Solemn faces appear on members as the pianist sings the mellow song, 'Save the Dancer,' during the January 12th assembly.
4. Taking a musical view at the 1950's, the group leader drops to his knees in his rendition of Elvis Presley's song, 'Houn Dog'.
5. Besides playing the electric guitar, this musician also sings lead in the theme song.

High Praise From Both Students and Faculty

'The Family' Entertained, Breaking Monotony

'The Family' grew from the inspiration of an idea, first in the minds of its founders, Jesse Wilkins and Rick Ellis. It was a happening, natural and spontaneous. The idea of doing something both creative and a little crazy continued to grow. More Colts were touched with the idea of breaking through the dull routine of life and tearing down a few inhibitions. 'The Family' is bound to become a tradition, involving more people in a variety of ways. The idea at first was to add a little laughter to the mundane lunch periods, and to see if life could be more enjoyable. It was important that people stand back and laugh at themselves as they learn not to take life too seriously.

Those who performed and those who witnessed the performances, were entertained, and the movement which dared to be different became 'The Family'.

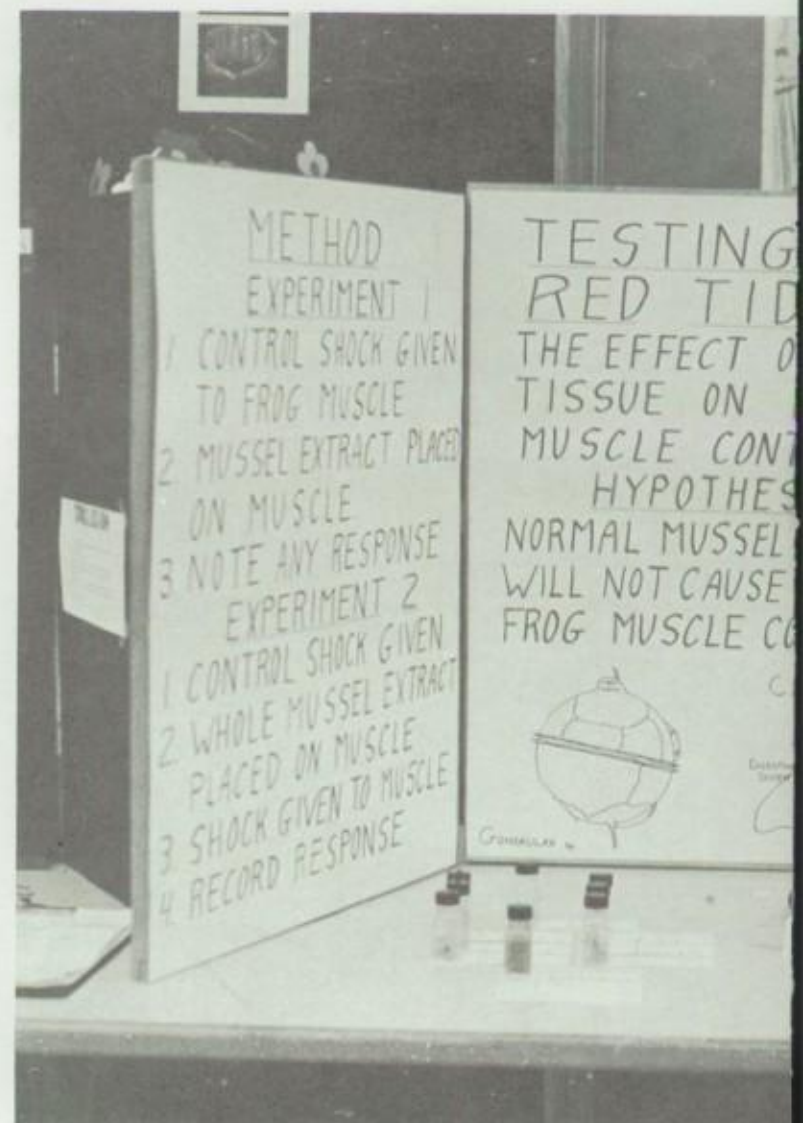

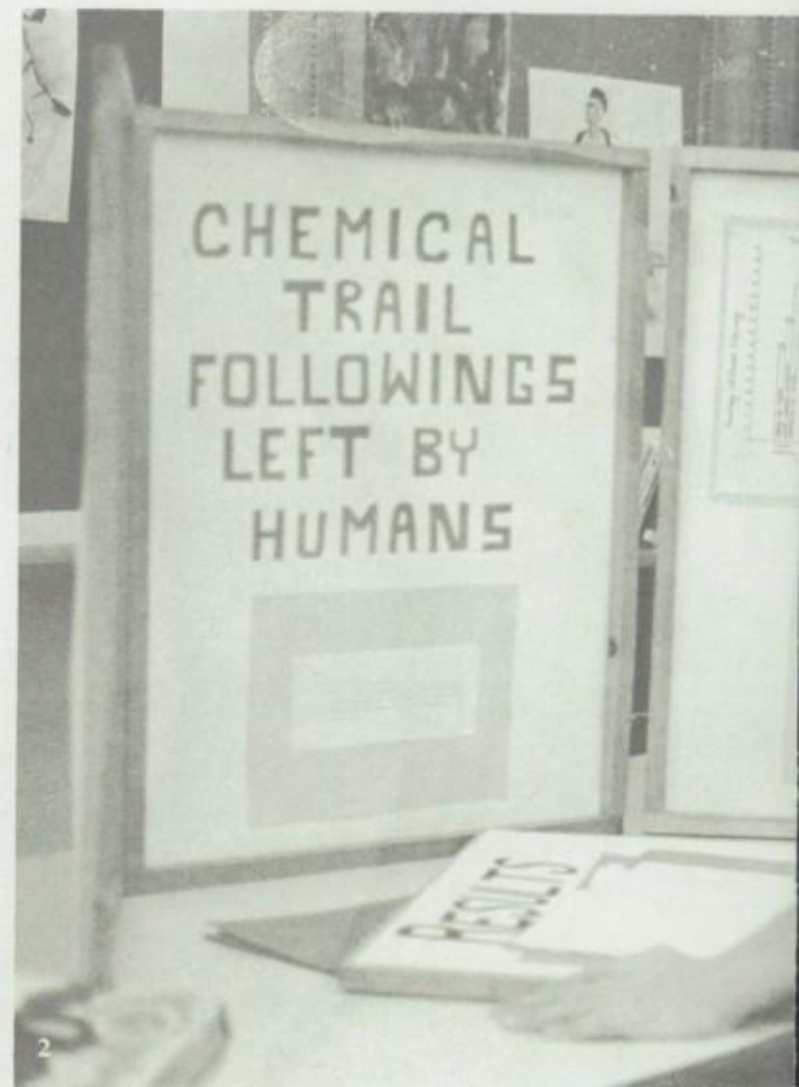

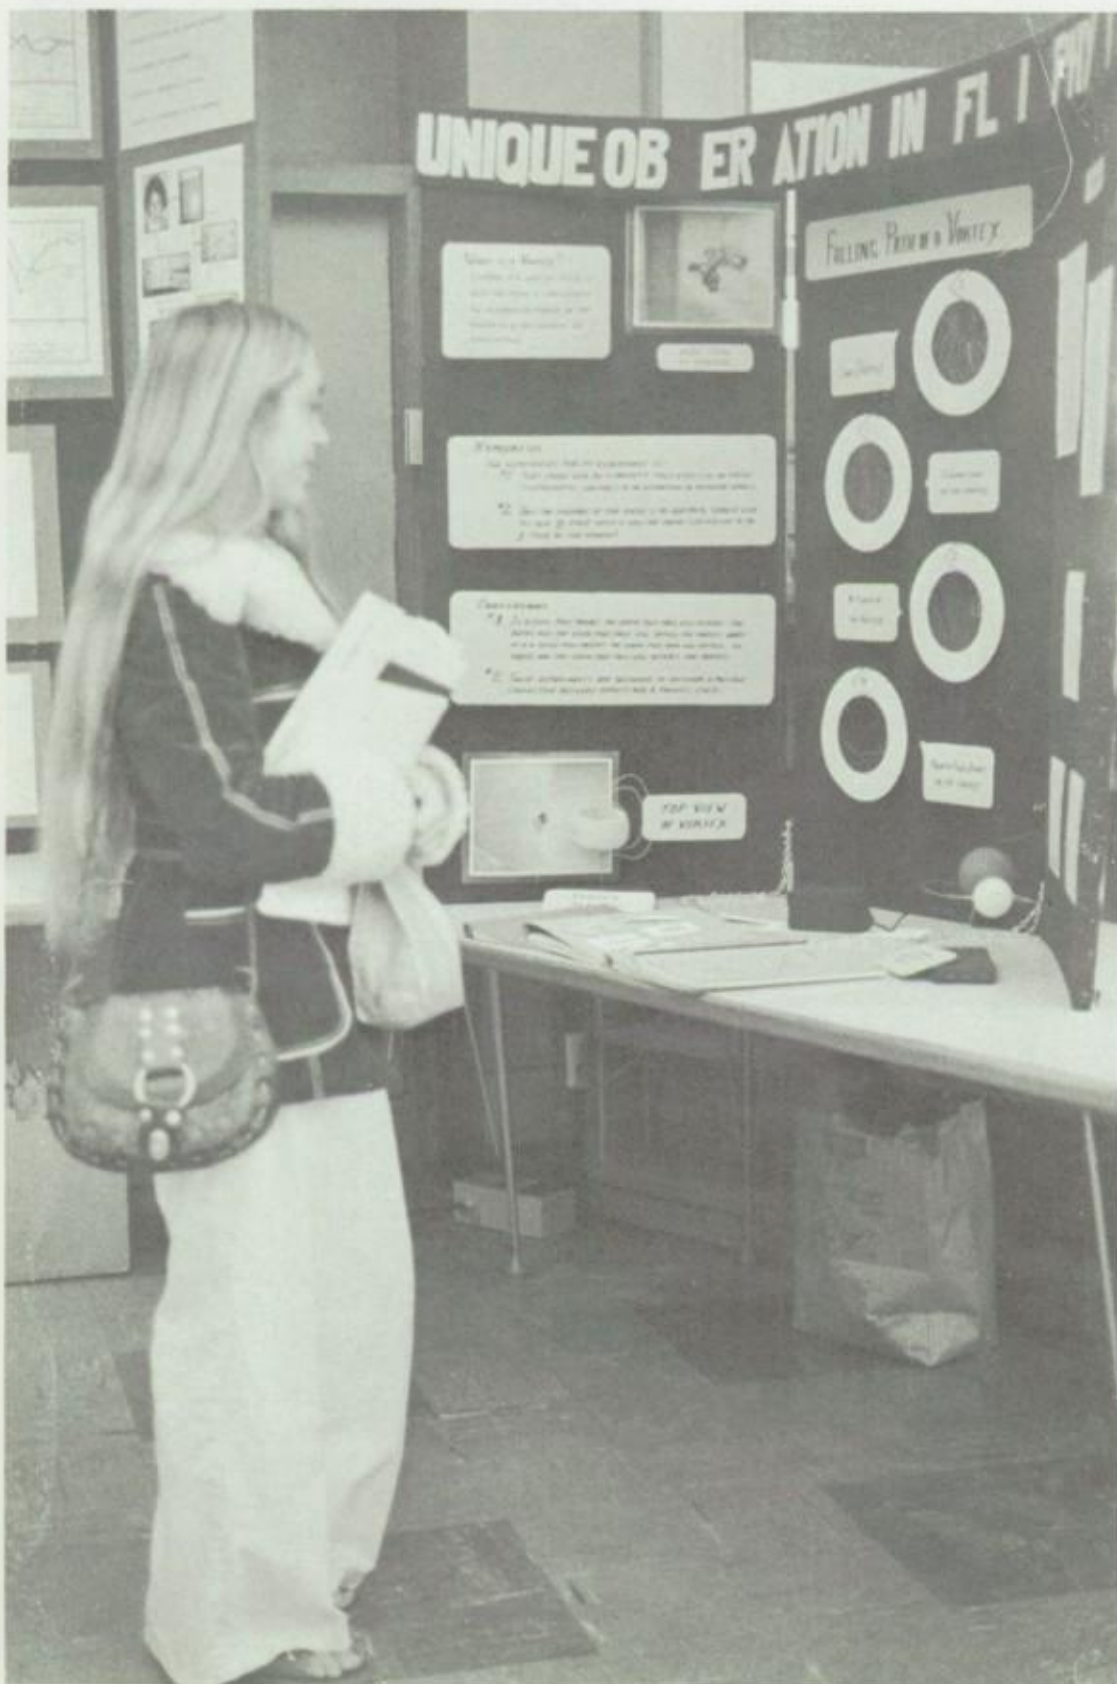

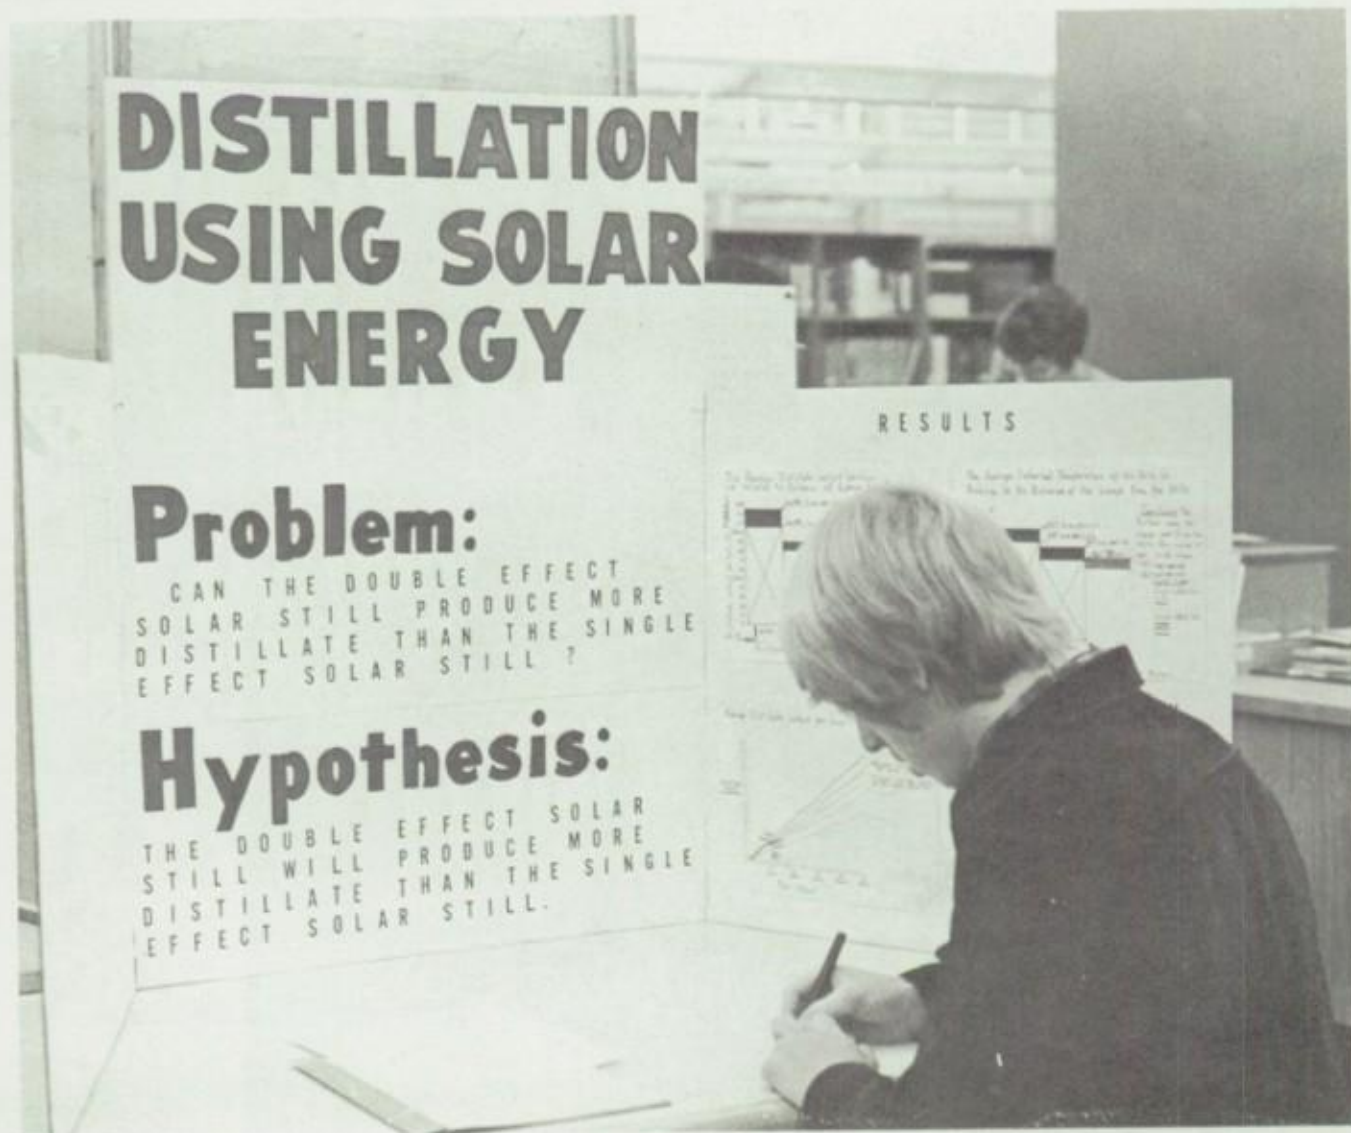

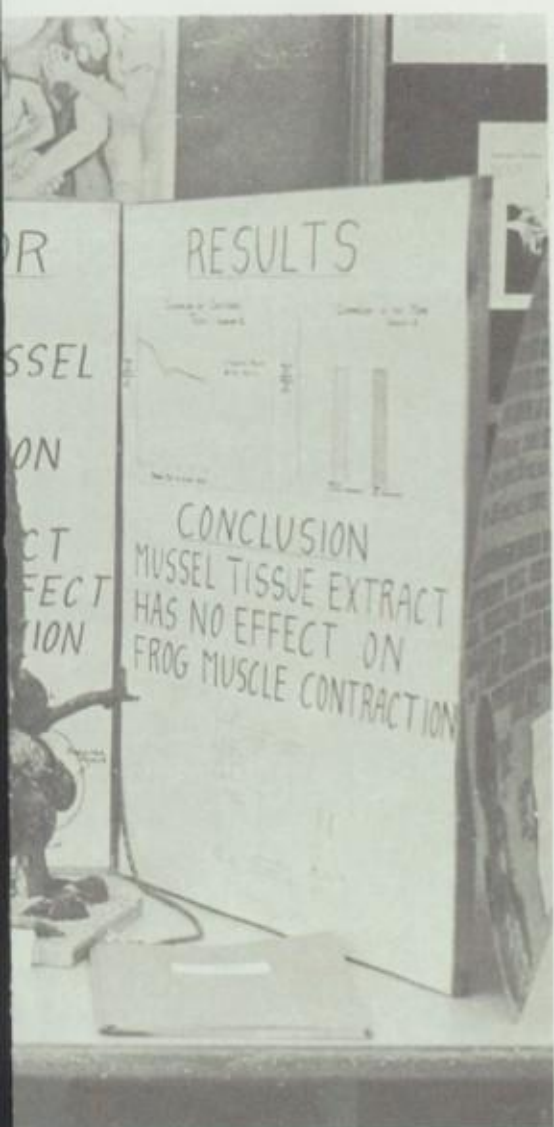

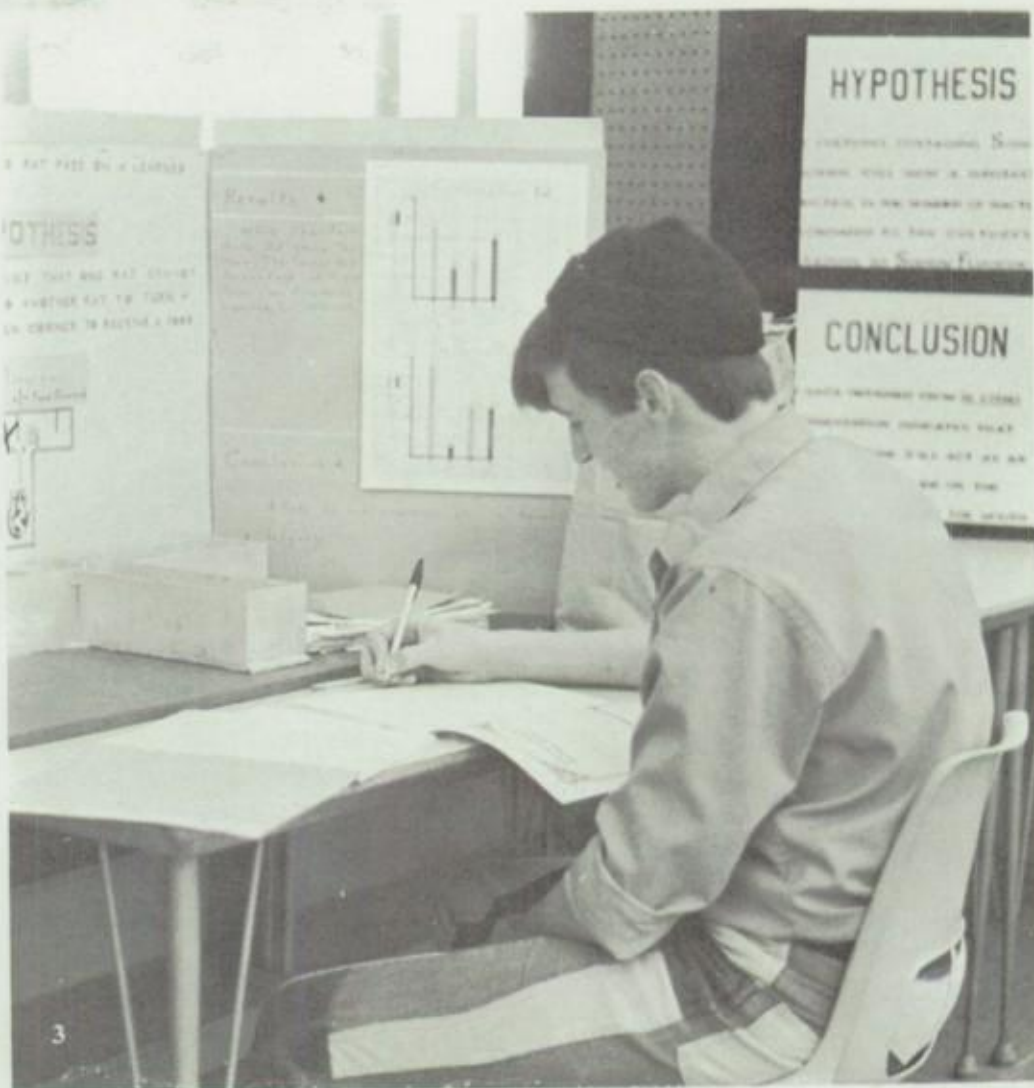

1. "Say, fella" is the way Jesse Wilkins and Scott McLaughlin gayly greet Family cheerleaders during a rally.
 2. 'The Fonze', alias Rob Welch, hangs out on the school corner greeting people with "Hey!"
 3. Rob Welch lays one on Mary Dukas, oblivious to the St. Valentine's Day Massacre taking place around them.
 4. Rick Ellis and Wendy Williams have their fun and games while Dean Nichols seems to be hung up on a trash can.
 5. The proud founders of the notorious group, 'The Family', are Jesse Wilkins and Rick Ellis.
 6. Caught 'short', 'The Family' lost all inhibitions while seated for their family portrait.
FIRST ROW: Richard Johnson, and Rob Welch. **SECOND ROW:** Jesse Wilkins, Richard Woods, Wendy Williams, Tom O'Neal, Mary Dukas, Melissa Hanks and Sergio Diaz. **THIRD ROW:** Dean Spillane, Dan Deras, sponsor Mr. Phil Heubach and Scott McLaughlin.

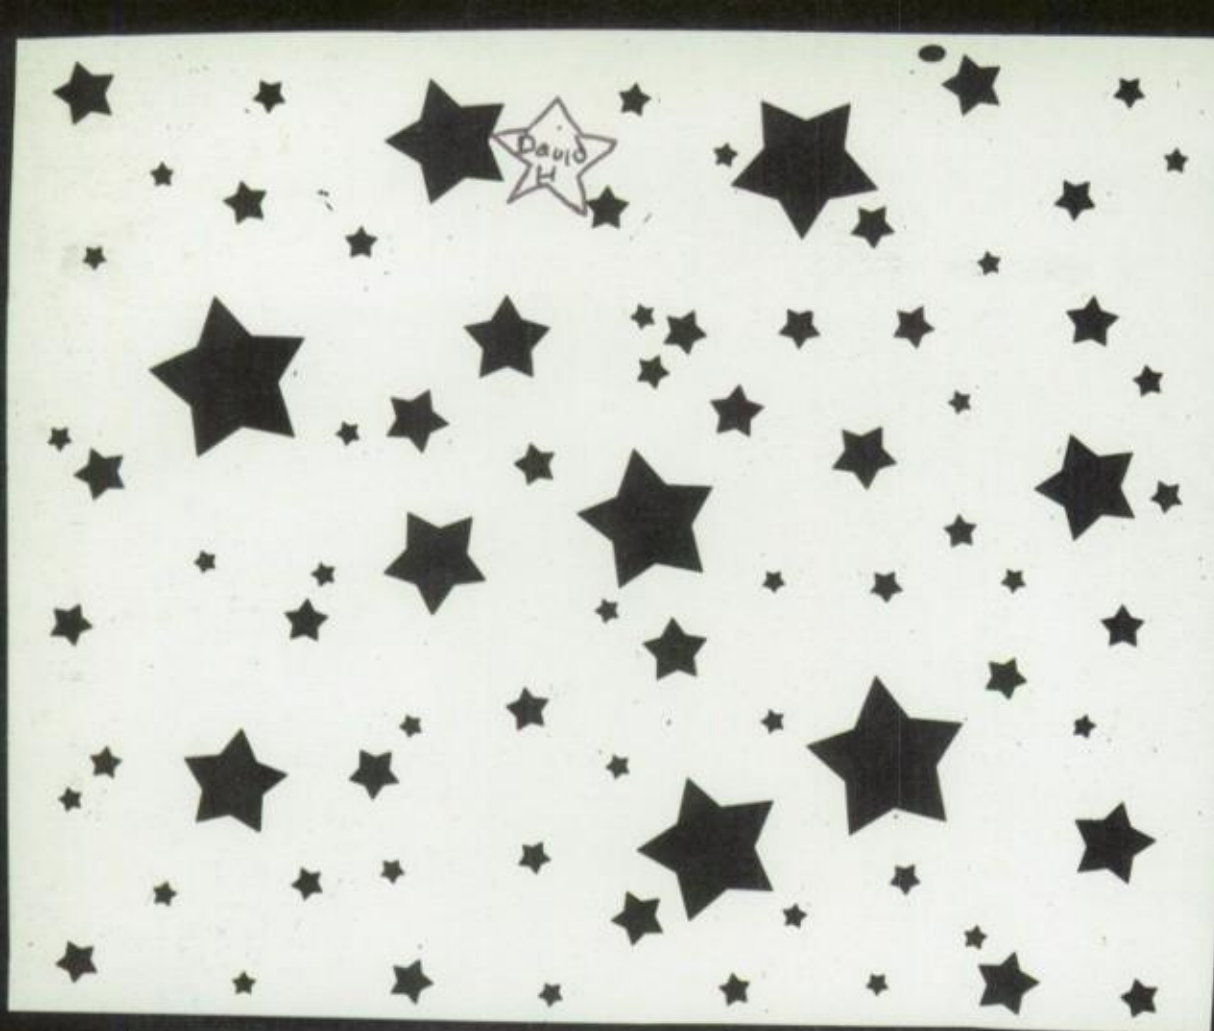

After Weeks of Effort, Scientists Agreed...

1. The library, known to some as the Scientist's Hall of Fame, is a busy location, full of knowledge-thirsty spectators.
2. Eat your heart out, Albert Einstein-One of the 37 Science Fair entrants carefully assembles an enviable masterpiece.
3. As the day of judgement draws nearer, Eric Apple, a hopeful participant spends a few last precious moments with his creation.
4. It's finally done!!! After hours of preparation, the science buff's pride and joy is ready for display.
5. "You are my sunshine....." The sun has the leading role in a project, soon ready to take the stage with the others for judging.

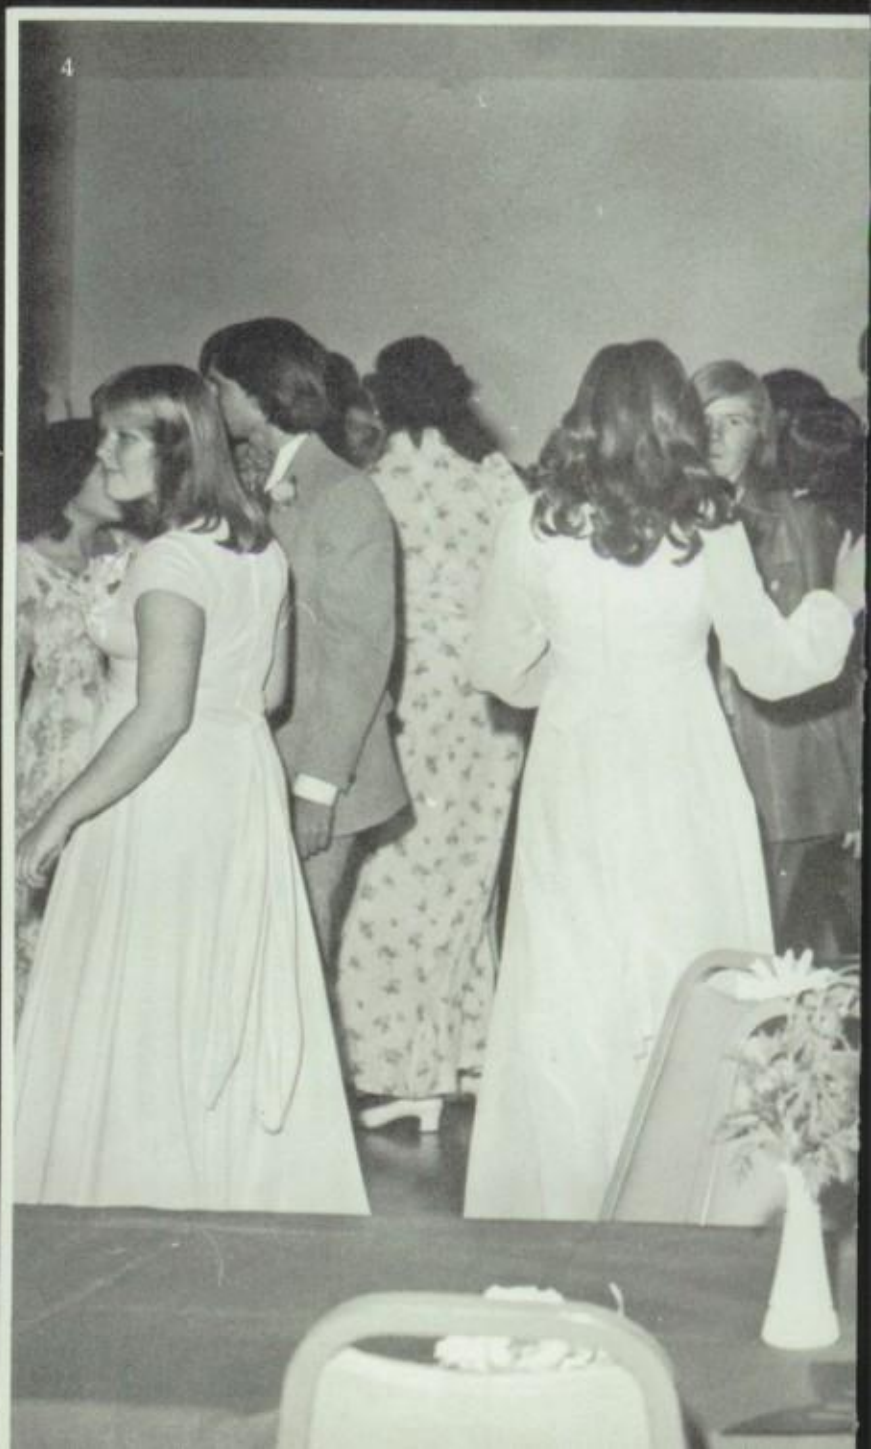

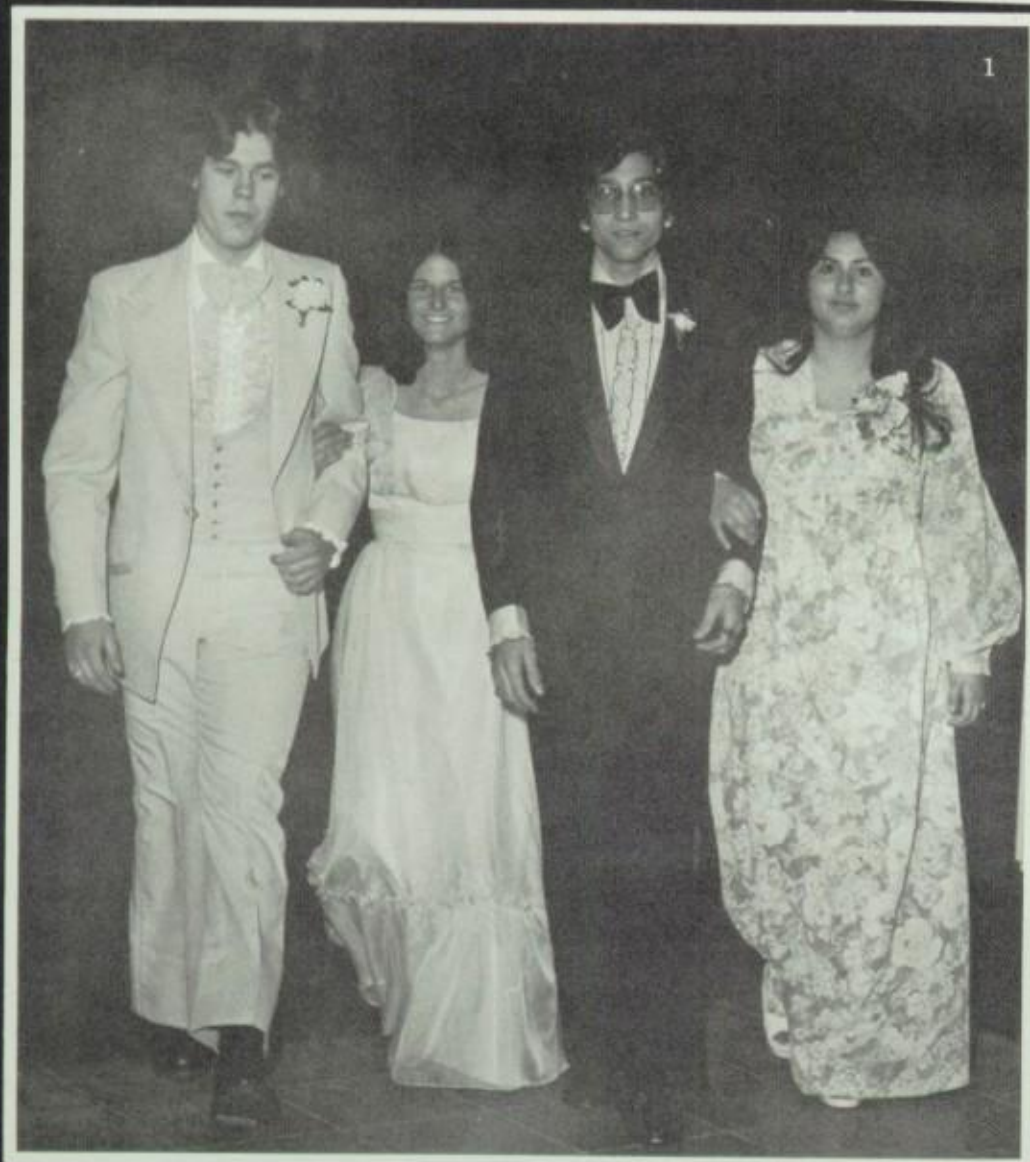

It was Indeed the 'Fair'-est of Them All

Not a Cloud in the

Sky, it Certainly was a 'Starry Starry Night'

On the evening of March 12th, over 200 couples arrived at the Sheraton Airport Inn to attend Crawford's annual A.S.B. Ball. Elegant couples danced in the Toledo and Barcelona Rooms to the music of Emergency Exit. The atmosphere was friendly, even though the dance floor was quite crowded. Thanks to the efforts of Mr. Bill Vogel and Mr. Jim Pillings, an additional room was opened mid-way through the dance, relieving the overcrowded conditions.

1. Bob Brant, Michele Lewis, Carlo Corral and Geraldine Meza are on their way to the ball.
2. Jesse Wilkins, assisted by Vanessa Franklin, presents a doorprize to Tom Sica and Karen Rhodes.
3. Early in the evening, couples have room to dance to the music of "Emergency Exit".
4. As the evening progresses, the floor becomes more crowded with exuberant dancers.
5. Randy Sanks looks on as Marilyn Rahn removes their couple card.

Enthusiasm is 'The

1. Tina Gerstler, Liz Mielnik, Dean Spillane, Richard Johnson and Rick Ellis gather to mourn over the death of a young girl portrayed by Kathy Fleming in "Spoon River Anthology".

5. Pat Snowden provides the music for the "Spoon River Anthology" production.

Start of Something Big' in Play Productions

Tryouts began with a song and dance routine. Hard work and long hours awaited the candidates if they made it into Play Productions. Students competed against one another for a single part in a play. They were on their own, gathering all their strength, enthusiasm and talent for a few short minutes as they tried their best to express the character. The cast was announced, a joyous surprise awaited a few people, while others faced the disappointment of not being selected for the part they wished to portray. But disappointment must not linger for the cast must join together to form a harmonious mood for the play. Finally, the product is completed, tickets are sold and people come to see the play.

Play Productions had the misfortune of poor audience attendance with their first production, "You Can't Take It With You", although that was no reflection on the quality of the performance. Their second production, "Spoon River Anthology", was also very enjoyable, with their special effects and theatre-in-the-round.

Well can you believe this year is almost over? Now sometimes it seems to wizz by and sometimes I thought it would never end. Well I can honestly say our friendship has grown this past year. I think we both have finally learned to accept each other for what we truly are. You've been such a friend to me these past years. You're about the only person in this entire world that I honestly feel really knows me. I guess because I don't have to put on a show for you and I'm comfortable being really me. Thanks for being my friend, ~~cousin~~ counselor, advisor, buddy, and life long pal. It's really been great! You've added so much to my life. You've helped me learn so much about myself and about life. I'm really grateful for this contribution. I can't say we always agree on everything because we don't & I don't condemn you for this either. I think we learned a lot about each other by separation also. I find as I go out and spend time with others I learned to appreciate them as well as you. I'm really glad we understand each other because it makes life so much easier. I also want to thank you for lending a listening ear to all my boring problems. I've always felt if I was to tell anyone you're the one to tell. You've never looked down on me for anything I did but seemed to understand, and even if you didn't you acted like it. This proves a real friend.

Well Sandy there's so much I could say but I don't want to ruin your book. Just wanted to share my appreciation for that special friend you have been.

Let's hope our friendship continues throughout life.

Thanks again,
Cindi

Loralyn Tenney,

Thelma Schwartz

Graduate 1, 2;

Head Class of '76

While most students had difficulty enduring Monday mornings, losing homework papers and taking tests, a few were able to complete high school with outstanding grades.

Loralyn Tenney managed to combine her studies, her interest in music and her church-oriented activities and achieve a straight 'A' average, while Thelma Schwartz finished closely behind. Loralyn has plans to continue her major in music at Brigham Young University. Thelma's plans are indefinite, but could include further study at Berkeley University.

4. With a doubtful look upon his face, Mr. Bill Vogel listens to innovative ideas.

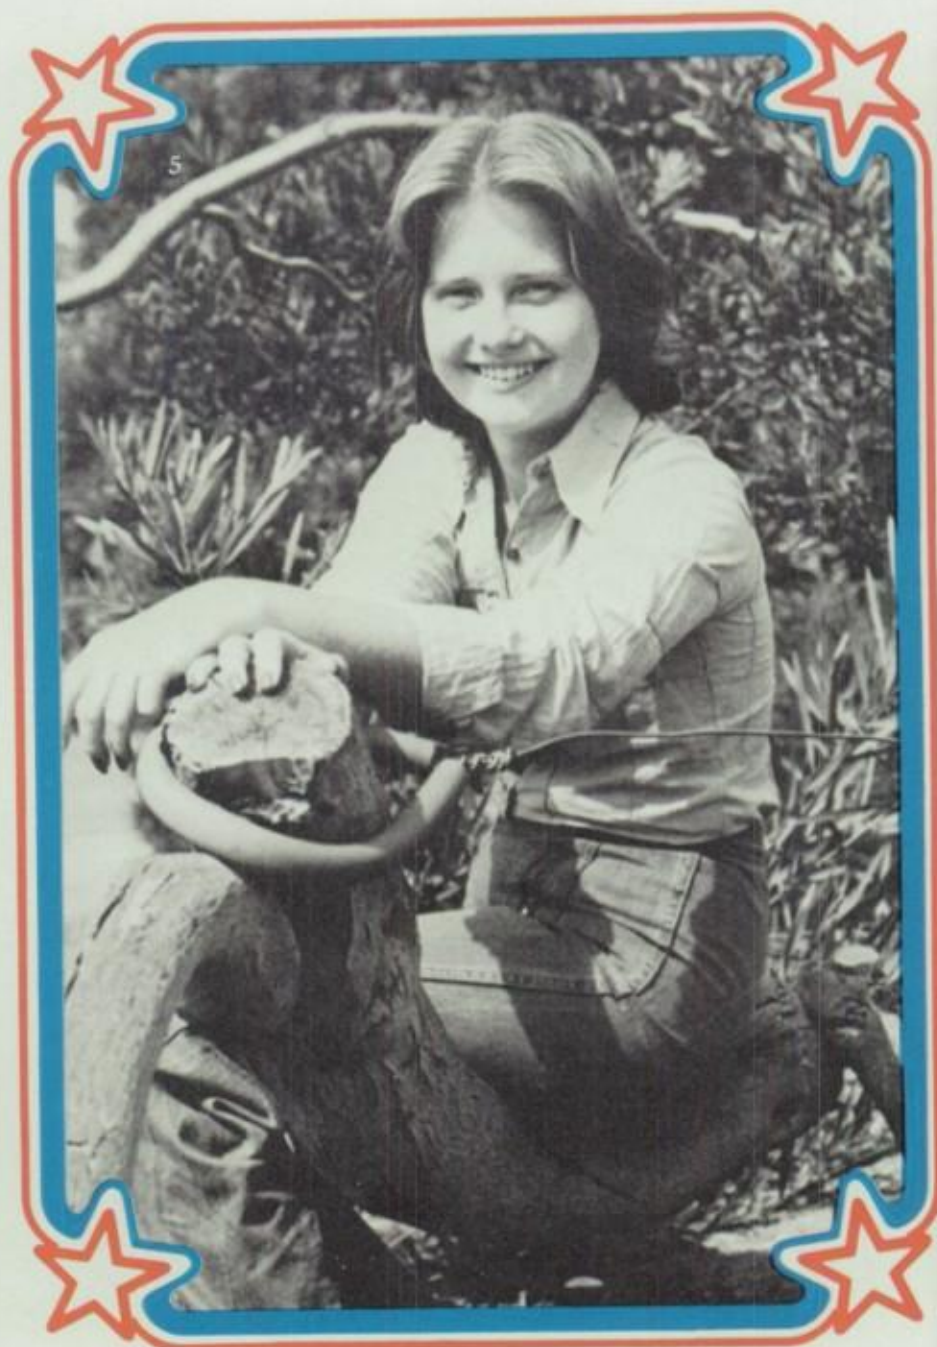

5. The enjoyment of serving as A.S.B. vice-president is reflected in Kathy Kozlowski's expression.

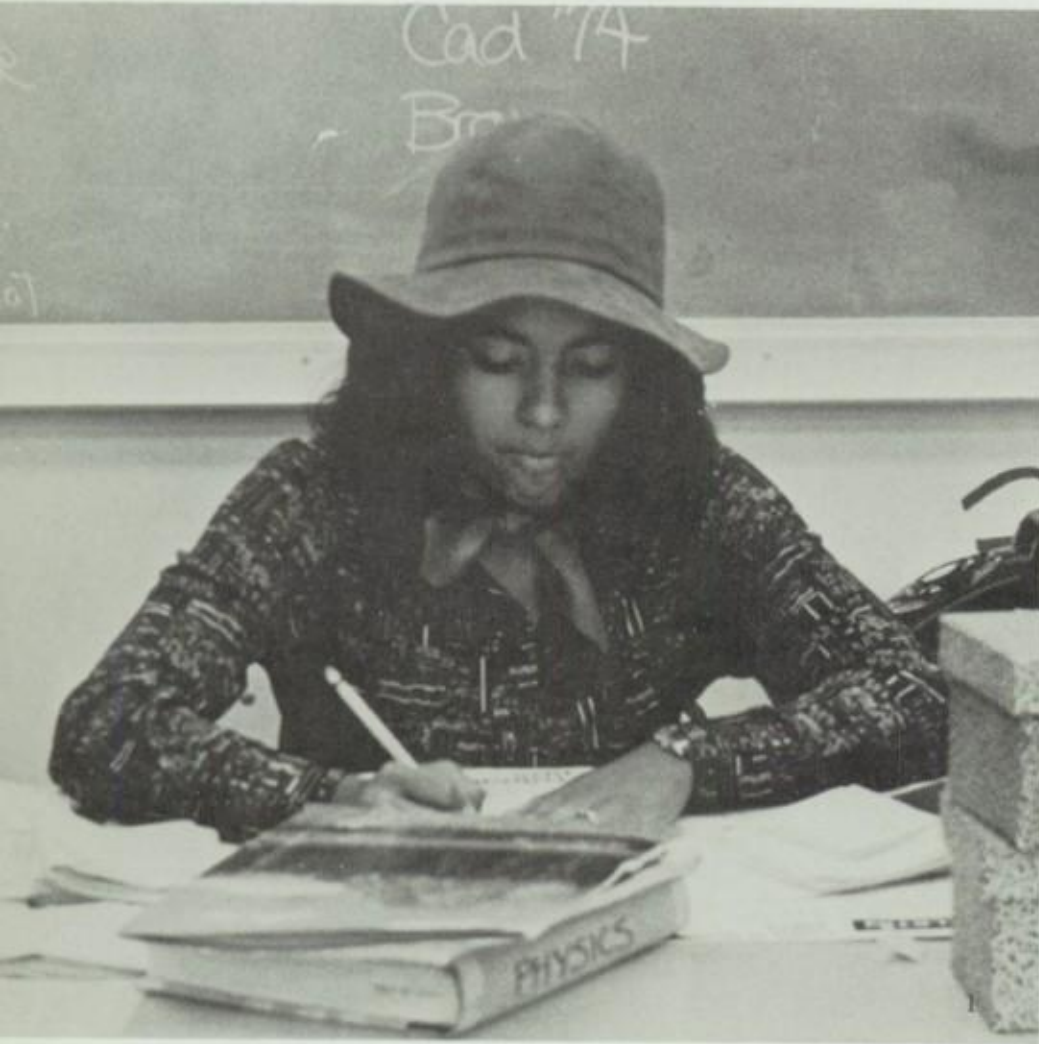

when She Became the First Madam President

The A.S.B. has always been governed by men. This tradition of eighteen years was shattered as Crystal Terry surpassed her male and female counterparts on the ballot for A.S.B. president. Working cohesively with other cabinet members, Crystal helped make the year's activities a huge success. Early in the year when asked about her responsibilities, Crystal replied, "Many students are doubtful of the power of the A.S.B. My experience has been that we control student funds and are responsible for supporting school activities. I enjoy the responsibilities, and the challenge of making things click and fall into place. It takes a lot of organization and patience with people to make the cabinet work as one unit."

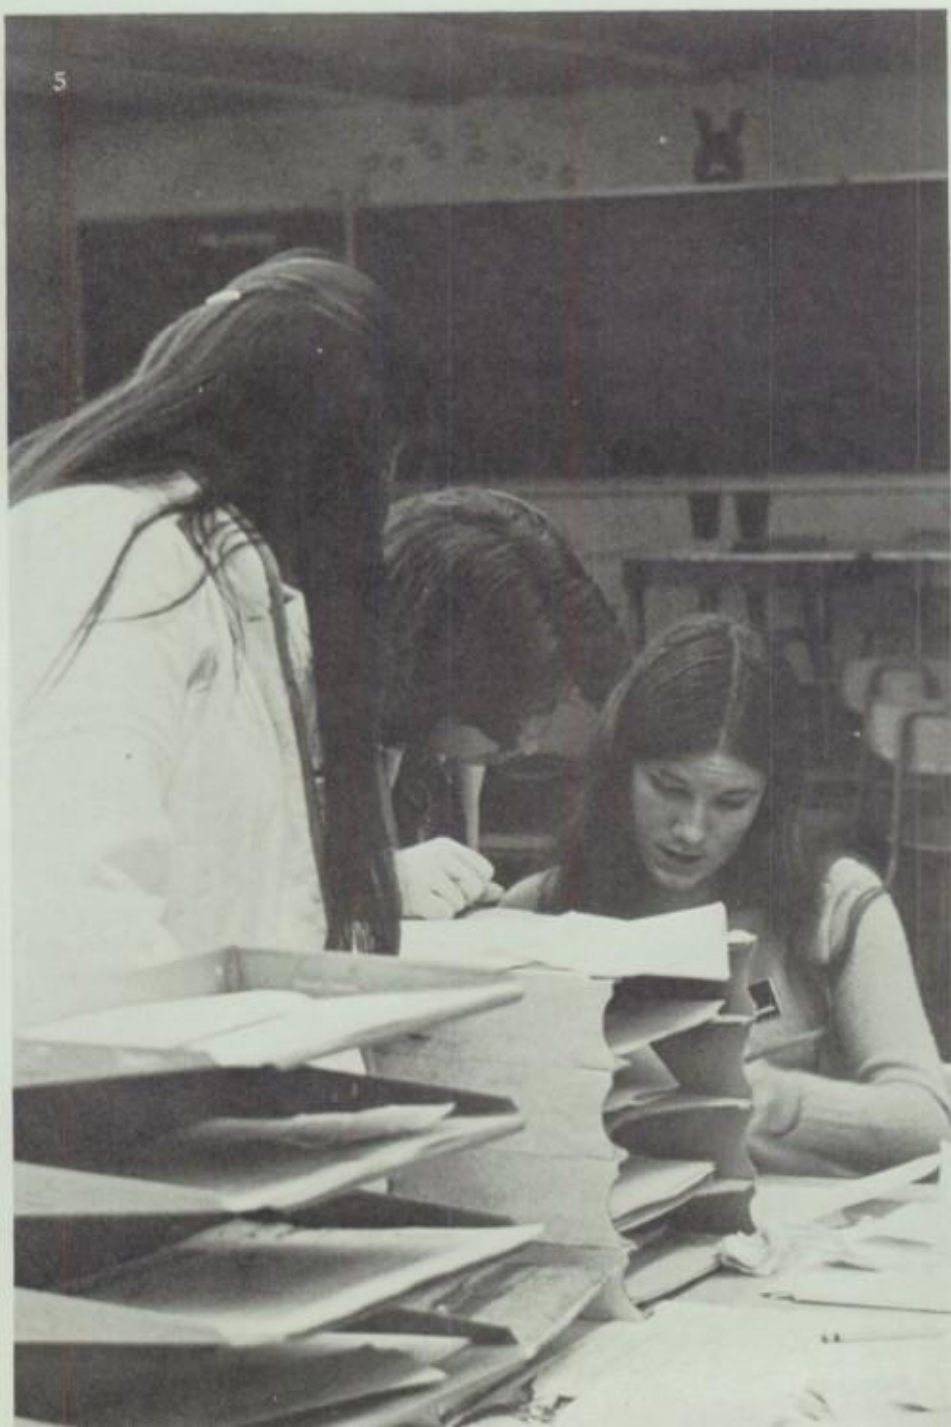

Energetic Cabinet Worked for Student Body

1. Busy at her desk, Crystal Terry tallies ballots from the Sophomore Election.
2. Kathy Kozlowski and Jeanne England talk about a possible Father-Daughter dance to be held later in the year.

Explode With . . . PARTICIPATION

While some students wandered around campus in a daze, and others complained about classes, teachers, or a lack of events, there were some students that were so busy they wondered where they found time to participate. Over 40 clubs and organizations were in existence and though a few clubs weren't too active, most groups had enough sales and events to drive their presidents crazy, or to the point of resignation.

There was a long list of activities for those who wished to be involved. Students supported such activities first semester as the homecoming festivities, the Dr. Michael Dean performance, and confection sales. The second semester featured the ASB Ball, the Donkey Basketball game, the musical comedy "Damn Yankees" as well as senior functions.

Colts proved they had no fear of involvement as they Exploded with Participation.

Season Proved Overall Success for Stir-ups

School life was extremely busy for Keiko Nakamura, AFS foreign exchange student from Japan. She was an active member of AFS and the Auroras. She also participated on the varsity volleyball team. Alternative Sought to PACER News Coverage

Five CHS students published an open letter called the Alternative. Soon after the first open letter came out in October Centaur asked why the letter was published. A representative from the Alternative staff replied, "We wanted to express the students view on matters, which we feel the Pacer staff has not accomplished." Editor-in-Chief of the Pacer, Sandra Lee Cunningham, was asked how she felt about the Alternative. "I feel that if the staff of the Alternative is enthusiastic enough to circulate an open letter, perhaps their energies could be spent on the Pacer's staff." Both of these groups tried their best to represent the views of the student body in writing for their publications.

1. The Pacer Staff is a group of highly ambitious journalists. They gallop across the campus reporting on the events occurring in the lives of Crawford students.
2. Studious and hard working, the members of the speech and debate team are headed by equally hard working, Ms. Mary Swank.

Explode With . . . POWER

Denise Dibbern's shot clears the net and meets a block from the other team.

Athletically, it was one of the best years for Crawford in a long time. The teams, which were well coached and boasted physically and mentally able players and winning spirits, exploded with power.

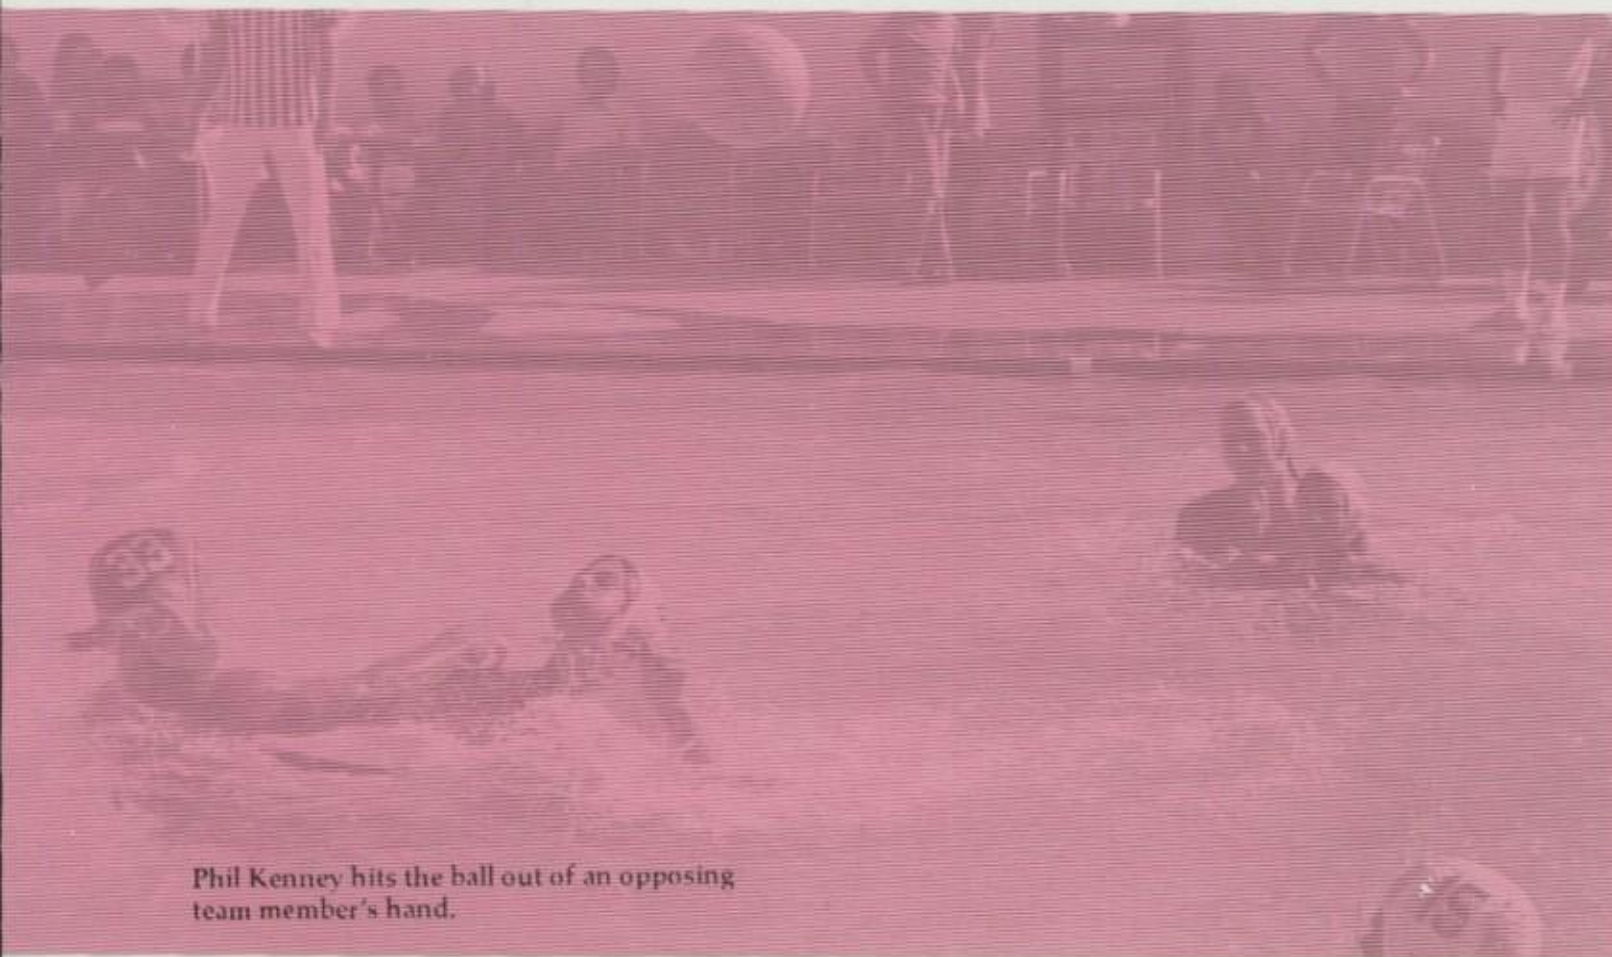

As all powerful teams do, CHS teams had their share of disappointments and downfalls. Yet they also had their share of glorious moments—such as when the waterpolo team boasted a 26-2 record, and when the volleyball team brought home the very first Eastern League title awarded in the initial year of CIF play for the fairer sex. Though competition was rough, all the teams continued to Explode with Power during their respective seasons, bringing additional honors.

Explode With . . . PERSONALITY

To have survived around a high school campus for a full school year, most students found it necessary to let their personality play a large part of their daily role. Whether taking part in class discussions and letting personal opinions flow, or participating in extracurricular activities after school, it was mandatory to let personal feelings out while at school. Students exercised many different methods to maintain a normal, happy life while at school. Seniors acted particularly absurd at times, while sophomores behaved rather immaturely. Actually these actions are recognized as normal behavioral traits but it prompted disbelieving juniors to roll their eyes, while forced to study logarathyms and contemplate civil war years. Whatever students did, it was all a matter of Exploding with Personality.

For sophomores, election of class officers means more than just voting, and to the many candidates, it means even more. After a week of poster making, speech writing, private campaigning and gathering up courage, the candidates present their views to the entire sophomore class in the traditional assembly. Spiced with everything from music to private cheerleaders, each nominee has his own way of stirring up interest and, hopefully, votes. After listening to a string of promising office seekers, sophomores engage in the most difficult part of the entire ordeal- voting. After the seemingly endless process of selection, tenth graders show instant promise and success for a strong year, with the choice of four hard-working class officers.

Electing Class Officers

1. After choosing from a list of impressive candidates, Noreen Blair and Cheryl Gorton add their ballots to the many others which will determine class officers.
2. Unrevealing in expression, ballot box carefully protects election results with a secure lock.
3. Presidential candidate Bill Kissel, with the help of four faithful supporters, presents his speech to sophomore class.

Thanks, and congratulations, to 'the gang' - Judy 'Luzinski' Clugston

Sandi - It's been another one of those "up and down" years for us hasn't it? But I guess that's because we're too separate people. But I hope it always stays like it is now, good friends. It seems like during the summer we don't do much because we lack having our own pools so we'd feel dumb acting each other to come swimming. Well don't feel that way. There are other things to do besides swimming.

"Listen, my children, and you shall hear
of the midnight ride of Paul Revere,
On the eighteenth of April in Seventy-five."
—Henry Wadsworth Longfellow

"The British Parliament has no right to tax the Americans . . . Taxation and representation are
inseparably united. God hath joined them; no British Parliament can put them asunder. To
endeavor to do so is to stab our very vitals."

—Charles Pratt, Earl of Camden

"Indeed I tremble for my country when I reflect that God is just."
—Thomas Jefferson

"I know, and all the world knows, that revolutions never go backward."
—William Henry Seward

"Young man, there is America—which at this day serves for little more than to amuse you with
stories of savage men, and uncouth manners; yet shall, before you taste of death, show it-
self equal to the whole of that commerce which now attracts the envy of the world."
—Edmund Burke

"Hence jarring sectaries may learn
Their real int'rest to discern;
That brother should not war with brother,
And worry and devour each other."
—William Cowper

"With malice towards none, with charity for all . . . let us strive on
to finish the work we are in; to bind up the nation's wounds."
—Abraham Lincoln

"America is a country of young men."
—Ralph Waldo Emerson

"The whites were always trying to make the Indians give up their life and live like white men—go to farming, work hard and do as they did—and the Indians did not know how to do that, and did not want to anyway . . . If the Indians had tried to make the whites live like them, the whites would have resisted, and it was the same way with many Indians."

—Wamditanka (Big Eagle) of the Santee Sioux

"When I was young I walked all over this country, east and west, and saw no other people than the Apaches. After many summers I walked again and found another race of people had come to take it. How is it? Why is it that the Apaches wait to die—that they carry their lives on their fingernails? They roam over the hills and plains and want the heavens to fall on them. The Apaches were once a great nation they are now but few, and because of this they want to die and so carry their lives on their fingernails."

—Cochise of the Chiricahua Apaches

"Sometimes people call me an idealist. Well, that is the way I know I am an American. America is the idealistic nation in the world."

—Thomas Woodrow Wilson

"There can be no fifty-fifty Americanism in this country. There is room here for only 100 percent. Americanism only for those who are Americans and nothing else."

—Theodore Roosevelt

"There is nothing wrong with Americans except their ideals. The real American is all right; it is the ideal American who is all wrong."

—Gilbert Keith Chesterton

"In the future days, which we seek to make secure, we look forward to a world founded upon four essential freedoms.

The first is freedom of speech and expression—everywhere in the world.

The second is freedom of every person to worship God in his own way—everywhere in the world.

The third is freedom from want . . .

The fourth is freedom from fear."

—Franklin Delano Roosevelt

"Let the word go forth from this time and place, to friend and foe alike, that the torch has been passed to a new generation of Americans—born in this century, tempered by war, disciplined by a hard and bitter peace, proud of our ancient heritage and unwilling to witness or permit the slow undoing of those human rights to which this nation has always been committed."

—John F. Kennedy

The '76 staff would like to thank the following people for the help and assistance which they have given throughout the year:

About this book;

The 1976 Centaur was printed by offsetlithography at Josten's/American Yearbook Co. in Visalia, California. Pages 1-16 are printed on 80# gloss, while the remainder of the book is printed on 80# dull. Copy is 10 pt. Palatino and captions are 8 pt. Palatino Bold. Headlines were prepared by the occupational graphic arts class, using the Strip Printer composing machine. The three headline styles used were Caslon Antique, Palatino Semi-Bold, and Century Bold Italic.

Producing a yearbook for the Bicentennial was not as easy as I had imagined. I thought it would be relatively simple to come up with a book that would fit right into the Bicentennial. Even before the 1974-75 school year ended, students were asking us to produce a book that was either very Bicentennial or one that had as little as possible to do with the celebration. No one requested a 'down the middle' book, which is what we came up with to please both the pro- and anti-Bicentennialists, using the theme 'Explode With...

I was wary about working with 4 veterans and 17 recruits, but the efforts of the group, as well as the individuals, eclipsed my highest hopes. I'd like to thank each member of the staff for his/her contribution. It takes a lot of dedication, plain hard work and once in a while even tears to deliver our product.

A very special "Thanks" to Lindy for the support and help he has give me in working on the book. The three years I've spent on the staff have proven to be an invaluable experience and provided many memories.

I hope everyone is pleased with the 1976 CENTAUR, and that everyone will Explode with ... Enthusiasm, Participation, Power, and especially with Personality.

Editor-in-Chief

During the past eleven years, I have had the pleasure of working with outstanding students on the yearbook staff as well as in the graphic arts classes at Crawford High School. With their labor and dedication, it was possible to develop an excellent facility and program. Consequently, former students will not understand my decision to accept an assignment at the new Junipero Serra High School which opens in September, 1976.

The challenges of a new school, a new program, and inexperienced yearbook staff and a book covering grades seven thru twelve offer many obstacles, but also present opportunities seldom available to a teacher. Hopefully, in another decade, I will be able to browse thru a library of Serra High yearbooks which are as successful as those which my students have produced at Crawford.

I am grateful to the students and teachers who have made these years so enjoyable. We have had many occasions for fun, and more than our share of arguments; but this time - I get the last word!
